

PAULINE SHIRLEY PATRICK

CRO & Growth Marketing · Web Experimentation · SaaS · Design-Led Strategy

+91 96294 40206 | shirleypatrick1@gmail.com | [linkedin.com/in/shirleypatrick](https://www.linkedin.com/in/shirleypatrick) | Portfolio  | Chennai, India

CRO and Growth Marketing leader with 10+ years spanning graphic design, UX research, and full-stack experimentation — a rare combination that bridges creative instinct with conversion science. At SaaS Labs (JustCall), delivered 350+ A/B and multivariate experiments, lifted visitor-to-lead CVR by 42.7%, and doubled trial sign-ups on high-intent paid pages. Equally comfortable owning a Figma design system, reading a GA4 funnel, writing a hypothesis, or presenting experiment outcomes to leadership. Built for teams that need someone who connects web strategy, UX quality, and pipeline outcomes in one role.

EXPERIENCE

Manager – CRO & Growth Marketing · [SaaS Labs \(JustCall\)](#)

2022 – Present

- Joined as Design Lead managing a team of 4 designers and the JustCall website design system — built a scalable Figma system cutting production time by 20%, then transitioned fully into CRO strategy in 2024, owning the end-to-end experimentation program.
- Lead cross-functional collaboration across Product, Marketing, CRM, and Analytics teams — connecting experimentation outcomes directly to pipeline, retention, and revenue targets.
- Owned annual CRO planning — set conversion performance targets and per-channel KPIs with Sales, SDR, and Finance; managed agency partnerships with Spiralyze and Redscope.
- Set up GA4, maintained CRM hygiene, and managed the broader martech stack; project-managed growth experiments including Reverse Job Switchers and Website Visit playbooks.
- Built AI-powered tooling to scale CRO output — a Traffic Analyst Agent (Claude Code + BigQuery + Slack) for daily anomaly detection and root cause analysis, and a Site Audit Agent to catch tracking issues before they corrupt experiment data.
- Built a CRO scraper for competitor landing page analysis and an analytical GA4 dashboard on Vercel — replacing manual CSV exports with an always-on reporting interface.

Conversion Optimization Highlights

- Ran 350+ experiments (A/B, multivariate, pre/post) across the full funnel — each backed by a hypothesis, sized for statistical validity, and tied to a business metric.
- Lifted visitor-to-lead conversion rate from 3.68% → 5.68% (+42.7%) across key landing pages; improved Google Ads conversion rate from 3% → 7% and reduced CPL by 54%.
- Outperformed a key competitor's page conversion rate by 66% (5.67% → 8.77%); doubled trial sign-ups in a single test cycle on a high-intent PPC brand page.
- Drove homepage improvements — 12% lift in conversion rate and 11.3% improvement in engagement rate; partnered with PMM to overhaul key landing pages, lifting conversion rate 45% (4.67% → 7.22%).
- Co-built interactive product demos with the Product team — generating 500+ qualified leads per month as a consistent pipeline source.

UX Researcher & CRO Mentor (Volunteer) · [ADPList.org](#)

Mar 2022 – May 2024

- Mentored early-career UX researchers and marketers through 1:1 sessions on experimentation frameworks and CRO portfolio positioning.
- Reviewed case studies, helped mentees structure hypotheses and impact narratives — several placed at growth-focused SaaS companies.

Marketing UX Researcher & Designer · [Kissflow](#)

2016 – 2022

- Pioneered the UX-led marketing approach at Kissflow — introduced a new experimentation discipline via 30+ internal education sessions, increasing leads by 40% and driving a 150% improvement in blog-to-lead conversion rates.
- Rebranded the marketing design language and visual system — contributed to a 40% lift in website engagement and 15% higher engagement on key pages.
- Optimized Digital Workplace Day Tweetathon campaign landing pages — drove a 28% increase in event registrations through targeted UX and conversion improvements.

Creative Designer · Ad2pro Media Solutions (2adpro)

2014 – 2016

- Designed print and digital creative for international media clients including Fairfax and McClatchy — brochures, banners, ads, and campaign assets across US, UK, and Australian markets.

TOOLS & EXPERTISE

Experimentation	VWO · Optimizely · Google Optimize · A/B, Multivariate & Pre/Post testing
Analytics & Data	GA4 · Google Tag Manager (GTM) · Amplitude · Heap Analytics · Tableau · HubSpot
User Behavior	Mouseflow · Microsoft Clarity · Smartlook · Heatmap & session recording analysis
Design & Web	Figma · Sketch · Adobe Creative Suite · HTML · CSS (foundational) · Lovable
Project & Collab	Jira · Asana · Notion · Slack · Cross-functional stakeholder management
AI & Automation	Claude · Claude Code · Grok · BigQuery · Slack integrations · CRO scraper · Traffic Analyst Agent · Site Audit Agent · Analytical dashboards (Vercel)

EDUCATION

Bachelor in Computer Application (BCA)

2010 – 2013

Stella Maris College, Chennai, India · First Class with Distinction (8.7/10) · Gold Medalist 2013 · Department General Proficiency Award — 3 consecutive years

Professional Development

CXL Digital Psychology Specialist · Google Analytics for Beginners (Google) · Interaction Design Foundation (IxDF)

AWARDS & RECOGNITION

 Trailblazer Award 2024 (SaaS Labs — Swift Execution)

 Marketer Innovator Award 2022 (Kissflow — Innovative Design Solutions)

 Bolt Awards 2014 & 2015 (Ad2pro — Exceptional Performance)
